

Technical Product Information

VARYBOND VB 67 Leak Detector Spray 400 ml

Leak Detector Spray enables you to find, without effort, any leaking spots of screwed and flanged joints, conduits and welds under internal pressure.

Leak Detection Spray is a non-toxic, environmentally-friendly product. Leak Detector Spray does not form harmful compounds with gases, such as carbon dioxide (CO₂), propane, butane, acetylene, compressed air, town and natural gas, nitrogen or fluorinated hydrocarbons.

Leak Detector Spray is

- not inflammable
- anti-corrosive
- skin tolerant
- tested in Germany DIN 30657

Leak Detector Spray helps to save energy and costs everywhere where work is done with compressed air, natural or liquid gas and where leaking spots can occur in fittings, screwed joints and connections.

When applied on air-brakes or gas conduits, it also makes a high contribution towards more safety.

Use:

Shake the aerosol vigorously before use. Expose suspected spots and spray them. Leaking spots are indicated by extremely heavy foam formation. **Do not use for testing pipes conducting oxygen.**

The details from this technical product information are based upon our current position of our knowledge, experiences and the legal requirements. They describe the utilisation of our products under normal operating conditions, without the guaranteeing of any laid down characteristics. They do not release the user from the necessity of own examination and precautionary measures. Our guarantee warrants for the quality of the product, but does not cover the success and effects caused by its utilisation, which are dependant upon a multitude of factors.
