

TEXPEN® and DALO®

Steel Tip Industrial Paint Markers

Perhaps the most rugged markers you will ever use, the **DYKEM® TEXPEN®** and **DYKEM® DALO®** paint markers get the toughest of jobs done. **DALO®** is a larger version of the **TEXPEN®** and holds a higher capacity of oil-based paint. Both perform equally well in demanding situations. These markers easily write through oil, grease and even underwater. They feature a stainless steel-ball tip so you will never have to worry about the tip wearing out before the paint is gone, even if you are writing on rough concrete or rusty metal. The thick, bold paint markings withstand extreme weather conditions without losing legibility or brightness.

TEXPEN® and DALO®

The **DYKEM® TEXPEN®** stands out for its distinctive medium oil-based paint markings. Its stainless steel-ball valve action tip writes through oil, grease and underwater without losing legibility or brightness even in extreme weather conditions.

Benefits:

- Write sharp, defined, bright marks on any surface including metal, plastic, glass, concrete, rubber and more
- Ergonomically correct marker that enables you to mark at all angles, even upside down
- Marker retains its shape unlike tube-style markers
- Paint flow is controlled by the bulb at the end of the barrel
- Drying time: approx. 25-35 minutes

Available Colours / Article Numbers:

Medium Tip

	Black	DY16033
	White	DY16083
	Red	DY16023
	Green	DY16043
	Blue	DY16013
	Yellow	DY16063
	Orange	DY16103

Colour indications are approximate because they are limited by the printing process.

The **DYKEM® DALO®** is the marking pen with medium tip that holds a high capacity of oil-based paint and is a larger version of the DYKEM® TEXPEN®. Its stainless steel-ball valve action tip writes through oil, grease and underwater without losing legibility or brightness even in extreme weather conditions.

Benefits:

- Extra large paint capacity
- Write sharp, defined, bright marks on any surface including metal, plastic, glass, concrete, rubber and more
- Ergonomically correct marker that enables you to mark at all angles, even upside down
- Marker retains its shape unlike tube-style markers
- Able to use all its paint with no waste
- Paint flow is controlled by the bulb at the end of the barrel
- Drying time: approx. 25-35 minutes

Available Colours / Article Numbers:

Medium Tip

	Black	DY26033
	White	DY26083
	Yellow	DY26063

Colour indications are approximate because they are limited by the printing process.

Why are the DYKEM® TEXPEN® and DYKEM® DALO® better than bottle or tube paint markers?

- **Mark at all angles** – including upside down and vertically (prior to use, simply pressurise or pump the marker for continuous flow)
- **Comfortable to hold** – not awkward like bottle markers or tube markers
- **No waste** – pressurised barrels allow for FULL use of the paint
- **No mess** – no shaking required and no leaking bottles or tubes
- **Disposable** – no re-filling necessary
- **No squeezing** – comfort grip of a marker
